

Service Provider Pricing

Terms and Definitions:

Service Provider: A company that exchanges eManifest data to CBSA or CBP on behalf of multiple carriers.

Carrier: A company with at least one Carrier Code or SCAC Code responsible for eManifest submission with CBSA or CBP.

BorderConnect offers simple predictive plans for Service Providers who act on behalf of carriers. For a carrier account to qualify for service provider pricing, one of the following requirements must be met:

1. Service Provider employees are logging into BorderConnect to enter data on behalf of carrier.
2. Service Provider is sending data via BorderConnect API on behalf of carrier.
